efficient and customer-friendly alternative to coated rotors, the company says. Advance Auto Parts Introduces CARQUEST Platinum Painted Rotors Rotors play an important role in your braking system. When you press the brake pedal, the calipers cause the brake pads to clamp down on the rotors (also called brake discs) to slow the spinning wheels. Rotors should be replaced by 70K miles on most vehicles, depending on use. Brake Rotors - Advance Auto Parts These hard-working rotors help drivers maintain a safe, reliable brake system performing at optimal levels throughout their life cycle. We recently introduced new features to the Premium™ rotor line for 2012 and newer applications, including: Graphite Guard on the hat and

plate edges. Phosphate finish. NAPA® Premium™ Disc Brake Rotors - NAPA Brakes Brake rotors come in a few different varieties. Most are discs with flush surfaces. There are also drilled and slotted rotors. Putting holes in any brake components may seem counterintuitive, but the holes allow water and heat to escape from between the pads and rotors, preventing brake fade and boosting stopping power. Brake Rotors - Front & Rear Disc Brakes the truth is they may be produced by the exact same company! the makers of many parts simply label per the order shipped. most are made in Mexico or China and facts are if you clean the new rotor really well with brake clean and install it correctly either will do just fine. the prep is a
