Offshore Oil Engineering Design Guide (3): Offshore Oil ... Large oil and gas projects take a long time to complete and the whole process from drawing table to first production can takes several years, of which the FID is often one of the most important steps The Complete Guide To FID's | OilPrice.com projects. Offshore design gives fire safety a special attention. Ship design contains oil fires and gas explosions in the fire safety rules of tankers but on the oil platforms fire safety is more complex. The objective of the thesis is to serve as a new compact
