One operator stands at ground level to operate the feed valve. Another stands on the tank, gauging its level with a dipstick. Process Dynamics, Operations, and Control | Chemical ... This course uses an open textbook University of Michigan Chemical Engineering Process Dynamics and Controls. The articles in the open textbook (wikibook) are all written by teams of 3-4 senior chemical engineering students, and are peer-reviewed by other members of the class. Using this approach, the faculty and Graduate Student Instructors (GSIs) teaching the course act as managing editors, selecting broad
